

Hello parents, carers and children.

It has been such a busy week here at HCFS!

Thank you to all the families that joined us for our class assembly this week. We hope that you enjoyed seeing your children show off their wonderful work.

In maths this week, we have been learning all about converting between different units of measurement, finally converting from miles to kilometres. We used our place value, multiplication and division skills to help solve these problems.

In Science this half term, we will be exploring everything to do with forces. Last week, we looked into balanced forces and this week we explored how friction works when pulling a weight across different surfaces. The children worked excellently in groups to test carpet, tin foil, cling film, kitchen paper and sandpaper.

We have also started to rehearse the songs for our carol concert which will take place on **Thursday 18<sup>th</sup> December 2025** from 5:15pm - 6:30pm. Please put the date in your diary and we look forward to seeing you then!

Mrs Good
