

Welcome back, everyone! We hope you all had a lovely half term and are ready for another exciting few weeks of learning. We've already been busy diving into some brilliant topics across the curriculum.

In English, we have been developing our persuasive writing skills by creating persuasive speeches, and we have been reading the powerful story *No Ballet Shoes in Syria*. In Maths, we have been working on statistics, including line graphs, pie charts and problem-solving activities. Our Science lessons have focused on classification keys and diagrams, helping us to group and identify living things. For our Project work, *Hola Mexico!*, we have been getting creative by designing and making our own colourful Alebrijes from clay.

We are really proud of the enthusiasm and effort everyone has shown so far and we're looking forward to even more fantastic learning ahead!

From,

Mrs Good & Mrs Morris
